GREEN HARMONY:

FOSTERING SUSTAINABILITY AND
SOCIAL INCLUSION

WELCOME TO THE PROJECT!

DESCRIPTION OF THE ACTIVITY

The project has following objectives:

- The "Green Youth Project" aims to achieve multifaceted objectives centered on environmental awareness, sustainable practices, and youth empowerment within the realm of youth work practice. Firstly, our project seeks to cultivate a deep understanding of environmental issues among young people, fostering awareness of ecological challenges such as climate change, biodiversity loss, and resource depletion. Through interactive workshops, outdoor activities, and discussions, participants will gain insights into the interconnectedness of environmental systems and human activities, empowering them to recognize the importance of environmental stewardship.
- We aim to equip participants with practical skills and tools to adopt sustainable practices in their daily lives and communities. By providing hands-on experiences in sustainable agriculture, renewable energy, waste management, and eco-friendly lifestyles, participants will develop the capacity to implement sustainable solutions in various contexts, from personal habits to community initiatives. Through experiential learning methods, such as group projects, role-playing exercises, and field trips, participants will not only acquire practical skills but also develop a sense of agency and efficacy in addressing environmental challenges.
- The project seeks to foster intercultural understanding and cooperation among participants from diverse backgrounds. By bringing together young people from different countries, cultures, and perspectives, the project will create opportunities for cross-cultural exchange, dialogue, and collaboration. Through intercultural activities, team-building exercises, and joint projects, participants will develop empathy, respect, and appreciation for cultural diversity, contributing to the promotion of peace, tolerance, and global citizenship.

ORGANIZER: (ARENĐİ) ULUSLARARASI ARAŐTIRMA GELIŐTİRME VE GENÇLIK DERNEĐİ

ARENĐİ was founded in Diyarbakır, Turkey, to enhance the quality of life for young people, support their social integration, and provide opportunities for individual and social awareness. The association focuses on cultural, democratic, social, and ecological awareness, bringing young people together and increasing their impact on the local community.

It primarily supports youth with limited opportunities who have been excluded from formal and non-formal education due to social, economic, or political conditions. Despite its recent establishment, the association has already partnered with an Erasmus+ project, sending six young people abroad.

The organization conducts courses, seminars, and training on youth, education, environment, and digitalization, while promoting green and digital transformation in line with EU priorities. With an experienced and dynamic team, its founding members have extensive experience in R&D, project management, and international collaborations.
